A Apear for Hongkong ... 1 299 had rejected the new system. We had, therefore. only the Gioire to heat, and we beat her with the Warring; but though, by common consent, we were thus far successful, our effort had

been so coally and tedious, that it was only once repeated. To the Warrior we added the Black Prince, at an expense of about £709,000 for the pair. It should be remembered that in those days monster guns bad not been produced, nor was there much desired in an ironclad except armour and speed. The new frigate represented an old frigate in general design, with the difference of iron plates no her sides. In course of time, but still with hesitation and delay, we closed with a design for an improved vessel of the Warriot class, and thus obtained at length the Minotaur, the Agincourt, some apprehension was alt lest he had tallen into and the Northumberland, to which, from a Go- the hands of piraces and been foully dealt with; vernment yord, was presently added the Achilles, serived at this port this morning, bringing with Now, it would be unfair to deny that these siz him the remaining six men of his crew, and 205 wessels were, and indeed, are, the, the finest iron- | chests of ten, from the cargo of the stranded clads affort, according to the lights by which they ship.

Was lift, of water in the hold, so there is little The only question, therefore, is whether we should chance of saving anything of the vessel except not have employed greater energy in building these her spars and rigging.

are certainly not more " anmanageable" than postcial merit of these ships that they are handier and " wolt ' is certainly poorly qualified to act as more managenule than those of the Warrior and chief officer of a ship. Minotaur class, without perhaps being materially inferior in acced. Alsogether, unless broadside ships are certainly worse than turret vessels, our ironclads are probably better than those of any other country. The misfortune is that we have so few of them, and that the Navy of Great Britain no long readibite its old superiority of force and power. A reflection however, is suggested by a recent example which may contri ute a little to our reassurance. At the Dattle of Liesu on old wooden two-decker unonbiedly engaged modern ironclade without disadvantage, and the Austrian officers appear to hay formed a conclusion that a wooden ship striking an ironcial tanky with her prow would probably disable her. This axiom would leave scope for the coployment of wooden vessels in pays actions, but it must not be too bastily admitted.

The Captain of the Westminster about whom

swiftness with defensive strength they are still that of the mate up to the time of their parting unrivalled. Our next step was taken at the in- company. After leaving the chief mate and his stance of Lord Palmerston, who, justly apprecia- party, the captain pulled for his ship, but instead ting the value of ironclads, and struck with the of finding her in the hands of pirates as he had d fliculty of obtaining them, advised the immediate heen led to expect, he found two large lishing conversion of some of our old timber ships, so as junks anchored within about a mile of the vessel, to stop the gap in our national defences. This and about a decan Chinamen loading them with suggestion gave ushalf-a-dozen ironcaned frigates, ten by means of their sanpuns. They treated the each of which was no good as the Gloire. Omitting captain kindly, giving him every thing he asked. mention of the smaller vessels, this is a brief his- for, and carrying out his directions in loading tory of our Ironclad Navy up to the time of Mr. their boats. On Wednesday a third junk made its Rece's appointment as Chief Constructor. The appearance, and came to anchor as near thoship as results in themselves were not discreditable to us: her draft of water would allow, and began taking hut, whereas we had thus turned out only a dozen | tea on board. When the first junk was loaded the fighting ships in half-a-dozen years, while all our captain offered them \$ 160 to take him to Hangkong old wooden reserves had been suddenly superseded. | which they readily secepted. Two of the junks left it followed that other nations had made themselves in company, the third one being still I adding, one not only relatively but absolutely as strong as we bound here by which the optain arrived, and the were. Foreign Governments had no difficulty in other poing to Macao. It is estimated that each either building or buying ironclads at the rate of of the two junks would carry \$250 chests, which twonyear, and this was enough to give them a Navy with the 205 landed to-day will make over 700 as good as ours-at any rate in numbers. We do chests recovered. Captain Bovey left Hongkong not believe that any foreign ironalads on the this afternoon in the steamer Shoosy Lean to rebroadside model are really as strong or as power- | visit the wreck and recover all that was passible

new vessels; and shown less fastidiousness in the | The conduct of the chief officer of the Westselection of patterns. One nation, and one unit, minuter in abandoning his yearel as he did, o must has adopted this policy. The Americans made up be too severely criticised; left in charge of the their minds upon the question with singular decision. After rejecting the principle of an ironelad bushle cargo, and every hope of some assistance force for some years, they were at length so in- being found; upon the approach of a fishing junk for-need by the action in Hampton Roads that they he seems taken with fright which was soon comrushed head-long into the new system. They municated to the men and a general stampede took the Monitor as their model, and built Monitors | was the result | What little reason there was for as fast as they could. It must also be added that this, is shown by the fact of the Captain returnthey are perfectly satisfied with the result. They ing to his thip in safety, to find the hand of armed alone, of all the people in the world, possess a printer reported by the mate to be a crew of fisher-Navy which in numerical strength is amply suf- men saving his ten with all the means at their fount, and which in excellence of pattern they command. His refusing to return to the ship believe to be unapproachable. Whether we, under when so desired by his Commo diog Officer was similar circumstances, should be equally con- as much an act of mutiny as though committed tented must admit of some doubs. The Ameri- on the ship's deck, and this combined with his cans, however, entertain no doubte on the ques- other confact should certainly be a sufficient, tion. Mr. Hawkeley says of our "floating cantles" | warrant for depriving him of his certificat :. An that every one of them appears "heavier, ugher, - theer who in the event of any accident to the more unmanageable, and more useless (except Captain succeeds to the command of the vessel for special applications; than the former one." should not be one who upon the approach of a But these vessels are heavy because the condition of storm would take to his cabin, or in the lace of speed involves large tonnage, and because the in- any danger, run away from the very duty which crearing power of gunz suggests increased thick- he is employed to perform, nor should a certifiness of armour plates.
